Lying At	High Line Yachting, Iver	**Material**	All Steel
Hull Thickness	10 – 6 – 4mm	**Last Blacking**	2020

HISTORY

Steel built in 2011 by Burscough Boats with a fit-out completed by Terry Fenby in 2019 with Declaration of Conformity issued, this 58ft wide beam is a well-proportioned and practical boat designed for comfortable living aboard. Been with the current owner since 2022 and this is when the last survey was carried out.

The interior features a spacious reverse layout, with the galley at the aft leading through to the bathroom, a versatile office or second single bedroom, the main double cabin, and a bright, comfortable saloon at the bow.

The galley is fitted with a full-size fridge and includes space for a washing machine, allowing new owners to install one if desired. Water heating is supplied by the Webasto system, the engine, or a 240V immersion heater, while cabin heating is provided by both a solid fuel stove and a new Webasto central heating unit fitted in 2026.

Please note that the boat is not currently fitted with an inverter.
